The ship was built by Deggendorfer Werft. The christening was undertaken by **Christiane Herzog**, the wife of the former president of Germany. The draft, concept and design were developed by the planning group Deas. The contracting entity and first owner was Conti Flussschiffahrts-GmbH & Co KG, which chartered the ship to the Delphin See- und Flusstouristik GmbH, which ended the charter at the end of 2000. The ship was run under the name **Primadonna** for Viking River Cruises

from 2001 to 2013. From 2013 to July 2015 the operator was Nicko Tours. In July 2015 Donau Touristik GmbH in Linz, Austria, purchased this **unique catamaran river cruise ship in the world**. The navigated area of the Primadonna is the Danube River from Passau to Budapest as well as the Danube Delta.

**Special characteristics:** The Primadonna's chosen twin-hulled model makes it a unique river cruise ship. The ship is the most expensive passenger ship in existence on the Danube (78.5 million DM = 40.1 million €).

**Equipment:** The ship has 81 cabins for up to 198 guests and 27 crew cabins. The promenade and upper decks each contain 20 passenger cabins with balconies. A further 41 slightly smaller cabins are available on the main deck.
